

Mark A. Ittleman

Talking is teaching

Say **Aphasia** had an amazing visit from Mark A. Ittleman M.S., CCC/SLP, an American, in October.

His book, *“The Teaching of Talking”* is packed with **exercises** and **detailed information** on you can learn how to help

family members and others regain their speech, by learning aphasia speech therapy methods **right in your own home.**

He is such a **forward thinking**, inspirational person. He practiced his techniques on two Say **Aphasia** members - what a **breakthrough** he made in such a **short space of time.**

Not only is he a **“mine of information”**, he is a really a likeable, friendly, and approachable guy.

The book is available from Amazon at £11.70 or a Kindle edition at £5.29.
